

BRING IT ON.

There's confidence in knowing that your wear parts won't let you down.

At General Carbide, we're looking for pump & valve manufacturers, and repair shops to bring us their biggest challenges for making components, parts and assemblies used on oil & gas exploration and production equipment.

In return, we'll bring you our vertically integrated combination of R&D, applications engineering, no-obligation pilot-scale production and manufacturing excellence.

Then, we'll make you a wide range of long-lasting, corrosion-resistant products including:

- Valves
- Chokes
- Seats & Plugs
- Cages
- Mud Nozzles
- Fix Cutter Bit Substrates
- Wear Sleeves
- Stabilizer Rings
- Valve Assemblies

When we say bring it on, we mean it. After being in business for 50 years, we have the expertise to help you keep things flowing smoothly.

Bring us your wear part needs at solutions@generalcarbide.com
